Html to Pdf Converter for .NET Framework and .NET Core

The online html to pdf converter offered by SelectPdf uses the html to pdf converter from Select.Pdf Library for .NET. SelectPdf SDK for .NET offers the possibility to create new pdf documents, load existing documents, merge existing pdf documents, split pdf documents, add elements to newly created or existing pdf documents.

The html to pdf converter from Select.Pdf Library for .NET can be used in any .NET application to generate pdf documents from full web pages or raw html code, much like the online html to pdf converter does. The free trial contains ready to use samples, coded in C# and VB.NET for Windows Forms, ASP.NET, ASP.NET MVC with Razor and ASPX engines.

SelectPdf provides versions for .NET Framework and .NET Core. SelectPdf also offers a free version of the Html To Pdf Convert for .NET to the developers community: [SelectPdf Html to Pdf Converter for .NET - Community Edition \(FREE\)](#).

SelectPdf HtmlToPdf Converter for .NET - Community Edition (Free)

Select.Pdf Html To Pdf Converter for .NET - Community Edition is a subset of [Select.Pdf Library for .NET](#). The Community Edition is available free of charge for personal and commercial purposes. The **free html to pdf converter** offers most of the features the professional sdk offers, the only notable limitation is that it can only generate pdf documents up to 5 pages long.

With the free html to pdf converter from SelectPdf, you can convert any url, html file or html string to pdf, with the possibility to add custom

headers and footers. You can also manage the pdf page settings (page size, page orientation, page margins), resize content during the conversion, set the pdf document security settings and even generate automatic bookmarks based on some html elements.
